

PowerPro™ 12-Volt Starter

HAN161/162

Thank you for purchasing the Hangar 9® PowerPro™ 12-Volt Starter. This starter has been tested as one of the highest torque producing starters you can buy. To power the PowerPro 12-Volt Starter, we recommend the Hangar 9® 12V 7Ah Sealed Battery (HAN102).

For your convenience, we have installed heavy-duty alligator clips to the power wires. If you are using a power panel, you can attach banana plugs that are supplied with the Hangar 9 Power Panel (HAN106).

The direction in which the starter will run is determined by the polarity of the wire configuration to the power source. On the power cord you will see two wires. The wire with the white stripe is the positive (+) wire to which the red alligator clip is attached, allowing the starter cone to spin in a counterclockwise direction when looking at it from the starter cone end.

Warranty & Repair Procedures

REPAIR AND WARRANTY INFORMATION

The Hangar 9® PowerPro™ Starter is guaranteed against workmanship and manufacturing defects for a period of 2 years from the original date of purchase. This warranty is limited to the original purchaser of the charger and is not transferable. Warranty repair will not cover units that have been modified, misused, serviced by an unauthorized service center, or everyday wear incurred in normal use. Under no circumstances is the buyer entitled to consequential or incidental damages.

REPAIR PROCEDURE

To receive warranty service, you must include your original sales receipt verifying the proof-of-purchase date. Providing that warranty conditions have been met, your charger will be repaired free of charge.

For non-warranty repairs, should your repair cost exceed 50% of the retail purchase cost, you will be provided with an estimate advising you of your options. Any return freight for non-warranty repairs will be billed to the customer. For non-warranty repairs, please advise us of the credit card that you prefer to use. Horizon Service Center accepts Visa or MasterCard. Include your card number and the expiration date. Horizon Service Center also accepts money orders. To speak to a service technician, call (217) 355-9511.

WARRANTY PROCEDURE

If your starter needs to be repaired, ship the charger in its original box (freight pre-paid) to:

Horizon Service Center
4105 Fieldstone Rd.
Champaign, IL 61822

Include your complete name and address information inside the carton, as well as clearly writing it on the outer label/return address area. Include a brief summary of the difficulty. Date your correspondence and be sure that your name and address appear on this enclosure. Also, please include a phone number where you can be reached during the business day.
